

PROFOAM

Revolutionize your sanding game with ProFoam sponge abrasives. Ultra-sharp hybrid ceramic aluminum oxide grain for fast sanding of flat or contoured surfaces. Featured electrostatic open coat for precision cutting and to minimize swirl marks.

SHREDDER SCREEN

Engineered screen to withstand heavy stripping and between coat sanding. Aluminum oxide screen allows the operator to prep sand faster and with longer durability.

SIZES:	6" PADS, 5" PADS, 3" PADS, 3"X4" PADS, 100X150MM RECTANGLE PADS, 60X133MM TRIANGLE PADS, 3" X 7" PADS
HOLE PATTERNS:	

SIZES:	6" DISCS, 5" DISCS, 3"X4" SHEETS, 3" X 5" SHEETS

RED RIPTIDE

Designed for the operator who requires quick responsive cutting action. Red Riptide paper features premium ultra-sharp aluminum oxide grains built for high performance, longevity, and rapid rates of cut.

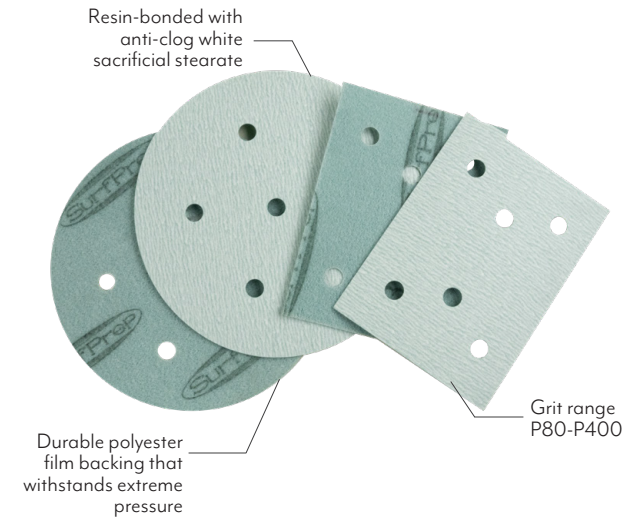

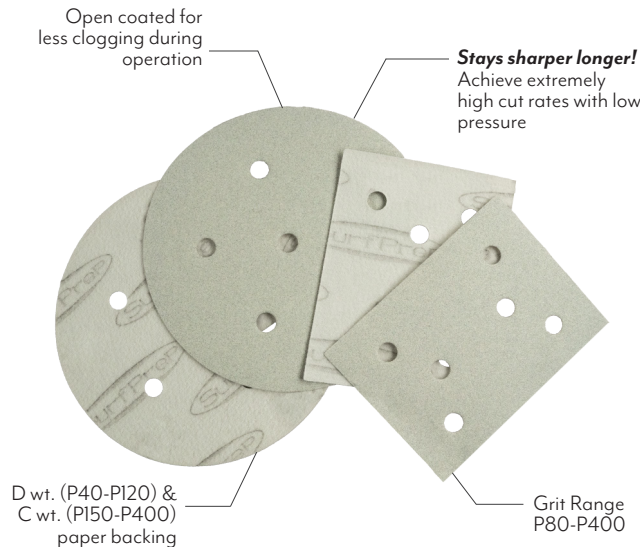

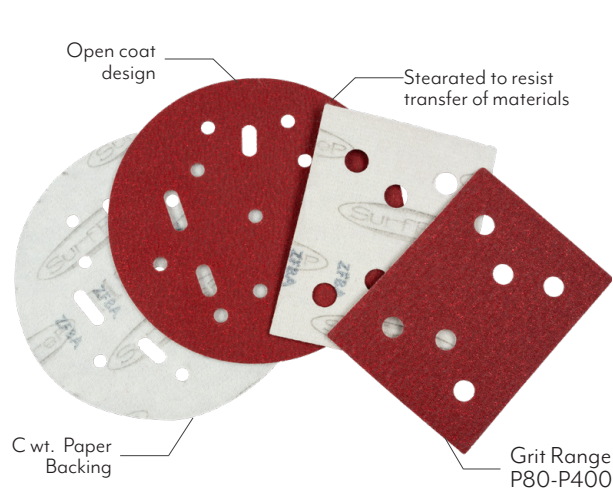

WHITE LIGHTNING

Engineered for the operator seeking a quick, rapid rate material removal. Featuring blended ceramic/aluminum oxide grains built for high performance, self-sharpening, and consistent finish.

BLIZZARD FILM

Created for applications where the operator desires superior edge wear life from disc or sheet. Featuring proprietary blended aluminum oxide grains built for high performance and a consistent surface finish.
